Since CSS is a local company, we have personally built relationships with our providers. We tour their facilities, and encourage a strong working relationship between our advisors and their staff, to ensure that our clients are receiving the best care and services possible.

At CSS, your situation will be assessed by a Certified Senior Advisor (CSA). Why should you work with a Certified Senior Advisor? When you work with a professional who has added the CSA designation to his or her credentials, you know that you are working with someone who has invested time and effort in learning about the things that are important to you. A CSA is a professional who has specialized knowledge about aging and the important health, financial, and social issues that affect the majority of seniors. Our CSA's will help guide you and your family through the many tough decisions that need to be made as you go through the aging process. We are committed to learning more, through ongoing CSA continuing education programs, that encourage volunteering for activities that help seniors... and that require additional education in the specialized needs of seniors.

Our senior advisors provide assessment and link families with the services and professionals they need.
